

Cookie Policy

Latest update: October 2018

Through this Cookie Policy, it is intended to inform the user about the type of cookies that are set on devices used to access this website, for what purposes are used and how to disable them.

At any time, we can modify any content included in this Cookie Policy, so we recommend the user to periodically review it in order to be duly informed of the changes made.

What are cookies?

Cookies are small text files that websites save to your computer or other devices used to visit websites. They are designed to store and provide information to websites' owners about the browsing of its users (connection time, page operation...). This information help to improve the offered service, allow certain technical functions, carry out statistical studies and, sometimes, offer targeted advertising regarding the preferences of the user.

What cookies do we use and for what purpose?

We use the following cookies:

Essential cookies	These cookies are essential for the user to allow to navigate through the website and use its options or services, such as controlling traffic and data communication, identify the session, use security elements during browsing or share content over social networks.
Functionality cookies	These cookies allow websites to remember choices the user makes and provide enhanced customization features in certain services. For example, these cookies can be used to remember changes the user makes to language, text size, fonts and other parts of web pages.

<p>Performance cookies</p>	<p>These cookies collect information about how visitors use websites, such as which websites or services they are linked, monitoring and analysing the behavior of users. Information collected by this type of cookies is used for the measurement of the activity of the website, app or platform in order to introduce improvements based on the analysis of the data that the users make.</p> <p>This website uses Google Analytics, a Google’s tool that helps website and app owners to understand how their visitors engage with their properties.</p>
<p>Avertising cookies</p>	<p>These cookies are used to deliver advertisements more relevant to users.</p> <p>This website uses DoubleClick to target advertising based on what’s relevant to a user, to improve reporting on campaign performance, and to avoid showing ads the user has already seen. Depending on the publisher’s and user’s settings, information associated with cookies used in advertising may be added to the user’s Google Account.</p>

How can manage or refuse cookies?

User can allow, block or deactivate cookies installed on computers or other devices by changing browser settings. Most internet browsers automatically accept by default cookies.

Some cookies are used to improve the usability or functionality of websites and apps, therefore, if the user chooses not to accept cookies, some features of the services may not work properly, or their quality can be affected.

We offer the user some links with the instructions to delete, enable and manage cookies, depending on the browser you use:

- [Google Chrome](#)
- [Microsoft Internet Explorer](#)
- [Mozilla Firefox](#)
- [Safari \(Apple\)](#)
